

RH Floor Warden Responsibilities

Building Floor Wardens

The Building Floor Wardens **MUST** be familiar with their assigned areas to ensure a safe and orderly evacuation. The role of a Building Floor Warden is to lead the evacuation of building occupants within their designated area. They are responsible for recording the names and locations of areas of concern. (e.g. locked doors, missed areas, people who are unable or refuse to evacuate). These concerns must be reported directly to the Building Emergency Director. The Building Emergency director reports all information to the Fire Chief. If the Building Emergency Director is unavailable, the Building Floor Wardens shall their report to the Fire Chief or any member of the Fire Department.

Building Floor Wardens should check their floor or area regularly for:

- Accumulation of combustible material, rubbish, or flammable liquids in excess of quantities allowed by permit.
- Dangerous ignition sources (e.g. worn extension cords, oily rags, overheating equipment).
- Hazardous equipment such as portable heaters must never be left unattended. One must ensure heat emitting equipment is not next to cardboard boxes, paper, or any combustible materials.
- Exit signs in good order and adequate lighting in public corridors and stairwells.
- Fire and exit doors and their self-closing hardware in good operating condition (Doors should not be wedged open under any conditions).
- Exit routes (means of egress) are unobstructed.
- Fire hose and portable fire extinguishers are not obstructed, in good order and ready to use.
- Emergency Response Key Plans are correct.

All fire hazards that are discovered must be reported to the Building Emergency Director immediately for corrective action.

Building Occupants

Building Occupants **MUST be familiar with this plan** and know all the locations of the building evacuation route(s) and exit(s). During an evacuation, Building Occupants **MUST** follow instructions of Building Floor Wardens and/ or the Building Emergency Director.

If you require assistance during an evacuation, please notify Building Emergency Director and Building Floor Wardens right away to facilitate a Personal Evacuation Plan (See Appendix 5: Personal Evacuation Plan)

Contacts – Building Emergency Directors and Building Floor Wardens

1. The pre-determined meeting location for Building Emergency Directors and Building Floor Wardens is: on the east side of the RHUT building across East Mall by the Health Sciences Parkade.

The Predesignated Meeting Area for Building Occupants is: on the east side of East Mall by the Health Sciences Parkade.

Rusty Hut/EERF/HHL - Building Emergency Directors

Responsibility	Name	Activities:	Office	Phone	Email
Co-Director Rusty Hut	Scott Jackson <i>Civil</i>	Co-Director - Corresponds with Fire Dept, liaises with other Co-Directors and Floor Wardens	RH 124	604-822-4143 604-655-4911	scottj@civil.ubc.ca

In the Case of a Building Fire

Building Floor Wardens – Instructions

1. If not activated, activate the closest fire pull alarm immediately.
2. If immediately accessible, put on your safety vest.
3. Direct all personnel within your area to the nearest safe exit.
4. Urge people to stay calm and evacuate in a quick and orderly manner.
WALK, DO NOT RUN
5. Knock on closed and/or locked doors, state the nature of the emergency and proceed without delay to sweep through area. Ensure you evacuate with your assigned personnel and report any rooms/areas that were locked or inaccessible.
6. If it is safe to do so, close (do not lock) windows and doors on your way out. This will help to prevent oxygen from feeding the fire, provide containment, and slow the advancement of the fire.
7. Use the stairway to evacuate; DO NOT use the elevator(s). See Note 1.
8. If possible, assist occupants that are unable to evacuate using the stairs. Individuals requiring assistance are required to have a personal evacuation plan. Refer to **Appendix 4: Persons Requiring Assistance** and **Appendix 5: Personal Evacuation Plan**. Building Floor Wardens and Building Emergency Directors must relay the location of these occupants to the Fire Department.
9. Direct evacuated occupants to the Predesignated Meeting Area upon exiting the building. The building Predesignated Meeting Area is on the east side of the RHUT building across East Mall by the Health Sciences Parkade, with overflow possible inside the parkade if needed or during inclement weather .
10. Call 911:
 - a) State your name.
 - b) Provide the address and the nearest intersection. The address of your building is: 2275 East Mall, Vancouver, BC
 - c) Provide the following information about the fire:
 - **WHERE:** Floor number, room number
 - **WHEN:** Approximate time fire started
 - **WHAT:** What caused the fire, is it spreading, are people injured or requiring urgent assistance
 - **OTHER INFORMATION:** Hazardous materials, potential access issues etc.
11. Proceed to pre-determined meeting location for Building Emergency Directors and Building Floor Wardens (e.g. at an open area that is a safe distance away from the building). The pre-determined meeting location for Building Emergency Directors and Building Floor Wardens is on the southwest corner of the intersection of East Mall and Hospital Lane.
12. Relay pertinent information (e.g. occupants who were unwilling or unable to evacuate the building) to the Building Emergency Director or Fire Department at an open area that is a safe distance away from the building. See Note 2.

Note 1: Appendix 6: Elevator Upgrade Project, provides information on the elevator upgrades occurring across campus in efforts to meet the requirements of the Safety Code for Elevators and Escalators. In an emergency, elevators are not to be considered the primary mechanism for egress.

Note 2: All Building Floor Wardens report information to Building Emergency Director and the Building Emergency Director reports all information to the Fire Department. If Building Emergency Director is unavailable, the Building Fire Wardens can report directly to the Fire Department.

13. Stay on the scene until the Fire Department arrives. Once evacuated, DO NOT ALLOW ANYONE TO RE-ENTER THE BUILDING until the Fire Department gives permission to do so.

In the Case of an Earthquake

Building Floor Wardens – Instructions

If you are indoors - After the shaking stops

1. Count to 60 to allow debris to finish falling after the shaking stops and before attempting to exit.
2. Assess your immediate surroundings for dangers (i.e. check for fires, gas leaks, exposed/arcing electrical components/wires, leaking sewage pipes, broken water pipes, dangling fixtures/furnishings).
3. Determine whether it is safer to stay indoors or evacuate. Do not assume it is safe to exit.
Proceed with evacuating the building if it safe/ necessary.
4. Repeat DROP, COVER, AND HOLD procedure before resuming evacuation if an aftershock occurs during evacuation and you are still inside the building.

5. Begin Building Floor Warden Evacuation Procedures.

- a. Evacuate occupants in the area(s) that are assigned to you.
- b. Urge people to stay calm, and to evacuate quickly and in an orderly manner. WALK, DO NOT RUN.
- c. Do not allow building occupants to use the elevator(s).
- d. If possible, assist occupants that are unable to evacuate using the stairs. Refer to **Appendix 4: Persons Requiring Assistance** and **Appendix 5: Personal Evacuation Plan**.

Building Floor Wardens and Building Emergency Directors must relay the location of these occupants to emergency personnel.

- e. Upon exiting the building, ask evacuated occupants to proceed to the Predesignated Meeting Area. The Predesignated Meeting Area is on the east side of the RHUT building across East Mall by the Health Sciences Parkade.
 - f. Meet the Building Emergency Director at the pre-determined location for Building Emergency Directors and Building Floor Wardens (e.g. at an open area that is a safe distance away from the building) to give any additional information about the evacuation or about the building as required. The pre-determined meeting location for Building Emergency Directors and Building Floor Wardens is on the southwest corner of the intersection of East Mall and Hospital Lane.
6. Ensure pertinent information is relayed to the Building Emergency Director. Once evacuated, DO NOT ALLOW ANYONE TO RE-ENTER THE BUILDING until the Fire Department or authorized UBC building officials give permission to do so.

If you are indoors - During the Shaking

1. **DROP** to the ground
2. Take **COVER** by getting under a sturdy desk or table (it is important to keep underneath of lab benches clear for this reason). Stay away from overhead windows, shelves, and heavy objects which may fall (e.g. ceiling mounted projectors).
3. **HOLD ON** to the object that you are under so that you remain covered. Be prepared to move with the object until the shaking has finished. If you can't get under something strong, or if you are in a hallway, crouch against an interior wall and protect your head and neck with your arms.
4. Stay indoors till the shaking stops and you are sure it is safe to exit (i.e. stay away from exterior walls, as it is more likely to sustain damage during an earthquake). In most buildings in British Columbia, you are safer if you stay where you are until the shaking stops.

In the Case of an Earthquake

Building Floor Wardens – Instructions

If you are outdoors - After the shaking stops

1. Count to 60 to allow debris to finish falling after the shaking stops.
2. Assess your immediate surroundings for dangers. (e.g. fallen wires). Stay away from exterior walls and heavy objects which may fall.
3. Proceed to pre-determined meeting location for Building Emergency Directors and Building Floor Wardens (e.g. at an open area that is a safe distance away from the building) and wait for Building Floor Wardens to report information about the earthquake, the evacuation, or about the building as required. The pre-determined meeting location for Building Emergency Directors and Building Floor Wardens is on the southwest corner of the intersection of East Mall and Hospital Lane.
4. Ensure all evacuation information is reported to the Building Emergency Director and then that information is relayed over to 1st Responders when they arrive (e.g. Fire, Police or Ambulance).
5. Do not enter your building to evacuate occupants
6. DO NOT ALLOW ANYONE TO ENTER THE BUILDING until the Fire Department or authorized UBC building officials give permission to do so.

To sign up for UBC Alert:

Students:

1. Log into the [UBC Student Service Centre](#)
2. Add your cell phone number to “Your Details”

Staff and Faculty

1. Log onto www.msp.ubc.ca
2. Update your contact information on the Faculty and Staff Self Service Section
 - a. Update your cell phone number in order to receive UBC Alerts with the “Phone Numbers” link under my Personal Info
 - b. Update your emergency contact information (contact for parent, spouse, friend who can be reached in case you are ill or injured on campus) under “Emergency Contacts”

NOTE: Progress is currently being made by the University to address the area of Emergency Social Services (ESS) for the campus community. While the University is taking additional measures to help prepare the campus for disasters such as earthquakes, we also strongly encourage staff, faculty, residents and students to be personally prepared (e.g. having 72 hours emergency preparedness kits). Additional ESS related information will be provided once available.

If you are outdoors - During the Shaking

1. Stay outside if you are outdoors when the shaking starts, you should find a clear spot away from buildings, trees, streetlights, and power lines, then:
 - a) **DROP** to the ground,
 - b) **COVER** your head from falling debris. If you are in a crowded area, take cover where you won't be trampled.
 - c) **HOLD ON** until the shaking stops.

Post-Earthquake Instruction:

If available post-earthquake:

1. Monitor www.ubc.ca for information and updates regarding the event.
2. For individuals who have signed up for UBC Alert, monitor your landline phones, cell phones and email mailboxes for voicemail messages, text messages and emails for information and updates regarding the event.
3. Emergency Response Personnel or Volunteers may be deployed to areas across campus to disseminate pertinent information in response to the event.
