

**University of British Columbia
Department of Civil Engineering**

MASC THESIS SUBMISSION

Part A of this form should be completed by the student, and Part B should be completed by the Supervisor. The completed form should then be submitted as a pdf to gradsupport@civil.ubc.ca. Once the Graduate Advisor's approval has been conveyed to the student, the student may seek approval of the thesis by the Supervisor and Second Reader; and then submit the Master's Thesis Approval form (<https://www.grad.ubc.ca/forms/masters-thesis-approval>) to G+PS, with a copy to gradsupport@civil.ubc.ca.

Part A *[completed by student]*

Student Name: _____
Student Number: _____
Specialization: _____
Program start date: _____
Supervisor: _____
Thesis title: _____

CIVL 597 presentation

[The student should present the thesis within CIVL 597 prior to submission of the thesis to the second reader. If you are unable to present within CIVL 597, for example during the summer, then a special seminar invitation should be distributed to faculty and graduate students to give them the opportunity to learn about your research.]

Date of presentation: _____

Part B *[completed by Supervisor]*

Nomination of Second Reader

Proposed Second Reader: _____

If the proposed Second Reader is not a Civil Engineering faculty member, please confirm that the second reader holds the PhD degree and give a brief description of the individual and his or her suitability:

Coursework Credits

All coursework credit requirements satisfied? ___ (yes / no)

Supervisor's signature: _____

Date: _____

Graduate Advisor approval: _____

Approval date: _____
